

## Science Fair

- 🔬 This years Science Fair will be held on February 15 & 16, 2017.
- 🔬 Projects will be due on Thursday, February 9, 2017.
- 🔬 Each student will be required to do a project but they do not have to enter it into the Science Fair.
- 🔬 This project will count as two test grades for the third marking period; this could cause you to fail if you do not turn one in.
- 🔬 Students will need to use the scientific method to complete their projects. Those steps include:
  - ✨ State the Question (Topic)
  - ✨ Research the Topic
  - ✨ Hypothesis
  - ✨ Experiment
  - ✨ Observe
  - ✨ Record and Analyze Your Data
  - ✨ Draw a Conclusion
- 🔬 Each project must be on a display board. These are available from school – please see attached form. They are also available at any craft store or office supply store.
- 🔬 In order to prevent the same topics from being done, topics must be approved. We are currently looking for topics and if any additional help or resources are needed please let me know.
- 🔬 I need for the parents/guardians to sign this sheet, letting me know that you are aware of your child’s topic as well as the dates and the significance of the science fair projects.
- 🔬 Please return these sheets no later than Monday, December 12, 2016.
- 🔬 All science fair information can be found on my website.
- 🔬 Thank you in advance for all of your cooperation and if you have any questions please contact me at [ayodis@delranschools.com](mailto:ayodis@delranschools.com)
