

How to Log in and Use your Clever Student Account on Personal Computer

Using a computer, open up the **Google Chrome** web browser and navigate to this URL:
<https://clever.com/in/delranschools>

Please note that you must use Google Chrome, Firefox or Edge as your web browser. All others (Safari, Internet Explorer, etc.) will not work properly

To log in with your **Clever Badge**, click on the “**Clever Badge log in**” icon.

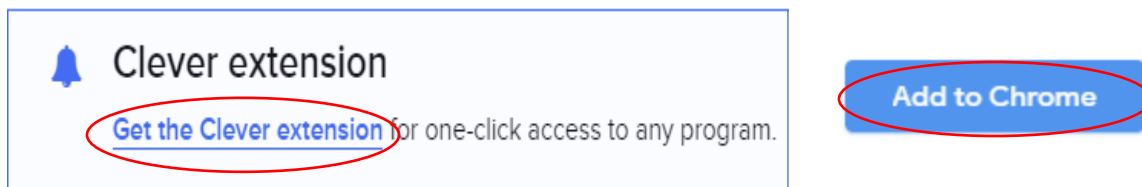

Next, you will need to give the website access to your webcam by clicking **Allow** from the prompt in the upper left corner of the page.

When the camera view appears, hold your clever badge about twelve inches from the webcam lens and a green check mark will appear when the verification is successful.

*If you do not have your Clever badge or a webcam, you may log in with the student’s Google credentials by clicking on the **Log in with Google** icon. *

Once logged in, near the top of the page you will see a prompt for the **Clever Extension**. Please click on this link and **Add the Extension to Chrome**.

Once the extension has been added to Chrome, return to your Clever portal and click on any of the programs from the **More Apps** section and Clever will automatically sign you into your account for that site.
