

How to Log into a Delran Chromebook Using a Clever Badge

When the **Delran Chromebook** starts up, you may be greeted with the screen below:

If you have a Clever badge, after clicking Next, hold your Clever badge about twelve inches away from the webcam and you will see a green check mark appear indicating that the login was successful.

If you do NOT have a Clever badge, you will need to sign in using the student's Google credentials. Enter the student's username followed by their password (*their password is their Student ID Number*).

*Not all our Chromebooks will prompt the user to sign in with a Clever badge. On some, you must sign in using the student's Google Username and password. After signing in, they should be directed to the Delran Schools Clever Homepage. If for any reason they are not, the link is pasted below. *
